AIR PARTNER

PRIVATE JETS

JetCard

Precious time

Time is today's only true luxury. Especially if you're living an international lifestyle.

Air Partner's JetCard gives you time to enjoy what's important to you – friends, family, work and play. And it makes private jet travel more accessible than ever with an unrivalled offer.

25 hours' flight time on the broadest range of aircraft in the world with guaranteed aircraft availability.

You'll fly on beautiful business jets provided by one of the world's largest and most respected air charter companies, and the only one to hold a Royal Warrant.

With one phone call, we're ready to fly you anywhere, anytime.

JetCard is about lifestyle

More flexibility

You buy only the hours you need, starting from as few as 25, you choose the aircraft category that best suits the purpose of your trip, and you get access to almost any airport in the world.

Transparent pricing

There is one simple payment with no hidden charges. You get discounts on qualifying return trips and tours, no peak day restrictions, refunds on unused airtime and flight credit that never expires.

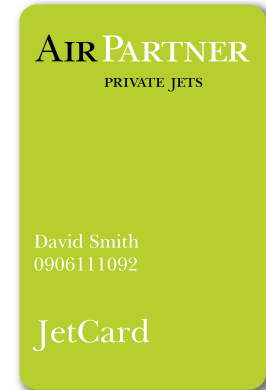

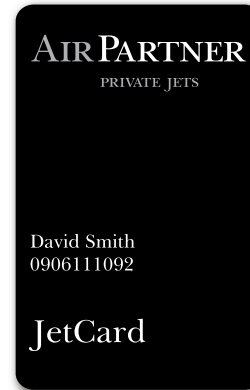

Superior service

On the ground, a dedicated team of account managers and concierges are available around the clock. In the air, our experienced and professional crews will look after you. Safety and dependability are our top priorities.

Naturally, there may be times when ad hoc charter is better suited to your needs. If so, we'll advise you accordingly.

Seamless connections

You tell us where you need to be, and we'll make it happen effortlessly. With JetCard you're en route somewhere special.

CarbonNeutral JetCard

The CarbonNeutral JetCard works in exactly the same way, but it also gives you the opportunity to offset your aviation emissions. We're the first and only global private aviation company to offer this service.
